Summary

Software Engineer (ex-Amazon) with one year of experience in **object-oriented** design, **distributed systems**, and **algorithms**, building applications with **relational** and **NoSQL databases**, **automated testing**, and **Agile** practices, delivering measurable improvements through disciplined software engineering and cross-team collaboration.

Work Experience

Amazon Development Centre

Support Operations Specialist

Bengaluru, Karnataka

Feb 2025 – Feb 2026

- Reduced manual operational effort by **30%** by developing **Python** automation scripts for workflows
- Improved production incident resolution time by **20%** by analyzing **Linux** logs systematically
- Built and maintained **CI/CD** pipelines, increasing deployment efficiency across **15+** workflows
- Streamlined operational decision-making by writing **SQL** queries against **relational databases** for insights
- Collaborated with cross-functional teams to monitor and support **AWS EC2** production systems

Varcons Technologies Pvt Ltd

Software Developer Intern (Full Stack)

Bengaluru, Karnataka

Aug 2023 – Oct 2023

- Applied **object-oriented design** using **React** components, reducing page load time by **20%**
- Reduced API query latency by **25%** by building RESTful APIs with **Node.js** and PostgreSQL
- Improved application stability through **automated testing** and debugging of production issues
- Collaborated in **Agile** sprints, documenting REST APIs and CI/CD workflows for the team

Projects

Hyperlocal Influencer Marketing Platform [\[GitHub\]](#)

React.js, Node.js, Express.js, MongoDB, Redis, AWS, JWT

Feb 2026 – May 2026

- Designed a **distributed**, multi-tiered platform using **React.js**, Node.js, Express.js, and MongoDB
- Implemented **NoSQL** data models with **MongoDB** and **algorithms** for geospatial discovery relevance
- Built JWT authentication and role-based access control, reducing unauthorized attempts by **20%**
- Designed and implemented **15+** REST APIs with Redis caching, reducing database load

VarifAI: Deepfake Detection [\[GitHub\]](#)

Python, Django REST, PyTorch, OpenCV, AWS

Jan 2024 – May 2024

- Achieved **95%** accuracy, measured by F1-score on **10,000+** samples, through an AI-powered deepfake detection system
- Designed a scalable backend using **Django REST**, enabling ML model inference through optimized REST APIs
- Trained **ResNeXt** and LSTM models, applying **algorithms** to optimize classification performance
- Deployed a **distributed** system on **AWS EC2**, S3, and **relational database** PostgreSQL

TechTune Motors [\[GitHub\]](#)

React.js, Node.js, Express.js, PostgreSQL

Oct 2023 – Nov 2023

- Reduced REST API response time by **25%** through **PostgreSQL** indexing and query optimization
- Designed scalable APIs with input validation and rate limiting, improving reliability by **20%**
- Authored **automated testing** and regression documentation validating correctness across CI/CD deployments

Skills

Languages	Python, JavaScript, C/C++, SQL
Frameworks & Libraries	React, Node.js, Express.js, Django REST
Databases	PostgreSQL, MySQL, MongoDB, Redis
Cloud & DevOps	AWS EC2, AWS S3, Docker, CI/CD, Git
Concepts	OOP, Distributed Systems, Data Structures & Algorithms, Automated Testing, Agile/Scrum, REST APIs

Education

Visvesvaraya Technological University, Karnataka

Bachelor of Engineering (B.E.) in Computer Science and Engineering

CGPA: 7.9/10

Publication and Achievement

- VarifAI Research Publication, Gradiva Review Journal (May 2024)
- Solved 500+ Data Structures and Algorithms problems across competitive coding platforms [\[LeetCode\]](#) | [\[GFG\]](#)
