Summary

Software Engineer (ex-Amazon) with one year of experience in **Python** development, systems debugging, and software testing. Co-authored peer-reviewed deepfake-detection research achieving a **95% F1-score**. Strong analytical and problem-solving skills, with experience coding, debugging, and collaborating with cross-functional teams on production systems.

Work Experience

Amazon Development Centre

Support Operations Specialist

Bengaluru, Karnataka

Feb 2025 – Feb 2026

- Developed **Python** scripts to automate workflows, reducing manual operational effort by **30%**
- Debugged production issues by analyzing **Linux** system logs, improving resolution time by **20%**
- Coded and maintained **CI/CD** test pipelines, increasing deployment reliability across **15+** workflows
- Analyzed infrastructure data using **SQL** queries to identify issues and validate system fixes
- Monitored **AWS** EC2 infrastructure, collaborating with teams to resolve production software issues

Varcons Technologies Pvt Ltd

Software Developer Intern (Full Stack)

Bengaluru, Karnataka

Aug 2023 – Oct 2023

- Reduced page load time by **20%** by developing **React** components with lazy loading
- Reduced API query latency by **25%** by coding REST APIs with **Node.js** and PostgreSQL
- Debugged production issues and executed test plans during **AWS** EC2 deployments
- Documented REST APIs and **CI/CD** workflows, supporting internal and outsourced development partners

Projects

Hyperlocal Influencer Marketing Platform [\[GitHub\]](#)

React.js, Node.js, Express.js, MongoDB, Redis, AWS, JWT

Feb 2026 – May 2026

- Developed a platform using **React.js**, Node.js, Express.js, and MongoDB for matching
- Implemented recommendation and geospatial APIs with **MongoDB** and AWS, improving relevance by **20%**
- Built JWT authentication and role-based access control using **Node.js** across the platform
- Designed **15+** REST APIs with Redis caching, reducing database load and latency by **25%**

VarifAI: Deepfake Detection [\[GitHub\]](#)

Python, Django REST, PyTorch, OpenCV, AWS

Jan 2024 – May 2024

- Achieved **95%** accuracy, measured by F1-score on **10,000+** samples, by an AI-powered deepfake detection system
- Designed a scalable backend using **Django REST**, enabling model inference through optimized REST APIs
- Trained **ResNeXt** and LSTM models, debugging and optimizing classification performance using evaluation metrics
- Deployed the system on **AWS** (EC2, S3, PostgreSQL), improving inference reliability by **25%**

TechTune Motors [\[GitHub\]](#)

React.js, Node.js, Express.js, PostgreSQL

Oct 2023 – Nov 2023

- Reduced REST API response time by **25%** through **PostgreSQL** indexing and backend caching
- Coded and tested scalable APIs with validation, improving system reliability by **20%**
- Authored integration and regression test documentation, validating correctness across CI/CD deployment cycles

Skills

Technical Skills

C/C++, **Python**, JavaScript, SQL

Frameworks & Libraries

React, Node.js, Express.js, Django REST

Databases

PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps

AWS EC2, AWS S3, Docker, CI/CD

Concepts

Software Systems Design, Debugging, Testing, Data Structures & Algorithms, System Design, REST APIs, Git, OOP, Linux

Education

Visvesvaraya Technological University, Karnataka

Bachelor of Engineering (B.E.) in Computer Science and Engineering

CGPA: 7.9/10

Publication and Achievement

- VarifAI Research Publication, Gradiva Review Journal (May 2024)
- Solved 500+ Data Structures and Algorithms problems across competitive coding platforms [\[LeetCode\]](#) | [\[GFG\]](#)
